

Sharath K K

Web Developer & Designer

About Me

- Ability to create innovative, creative and interactive web designs to boost customer engagement.
- Sound knowledge in HTML5, JQuery, React.js.
- Build reusable code for future use while optimising web performance.
- I am always eager to learn and adapt to new technologies.
- Short time goal is to secure a challenging position in a reputable organization to expand my learning knowledge and skills.

Skills

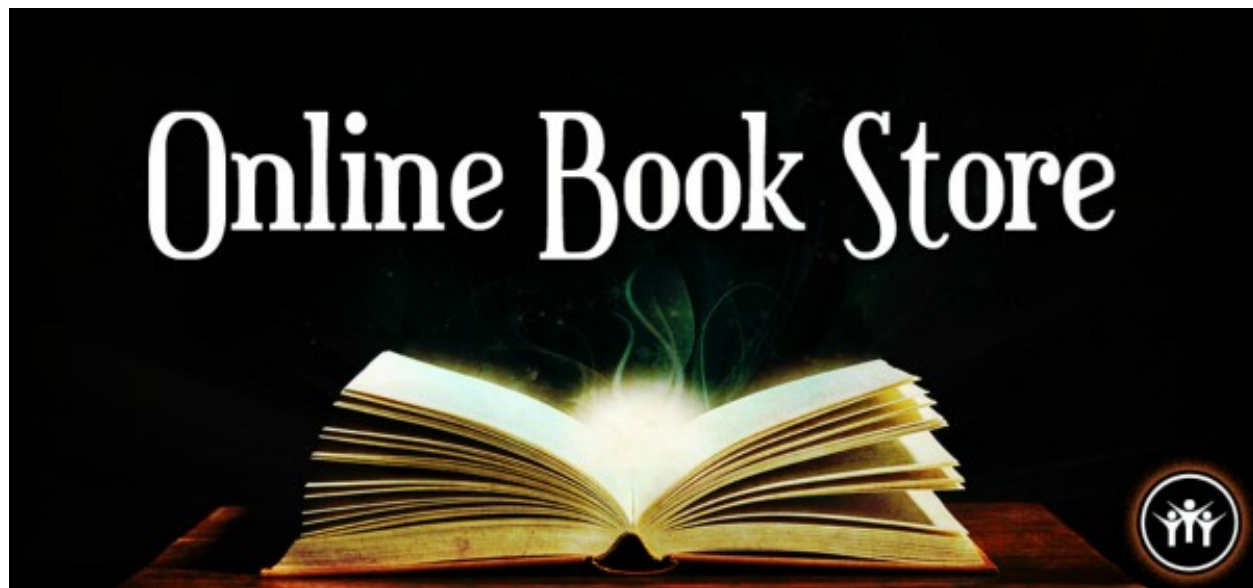

HTML5 & CSS3

JavaScript & ReactJS

Responsive Web Design

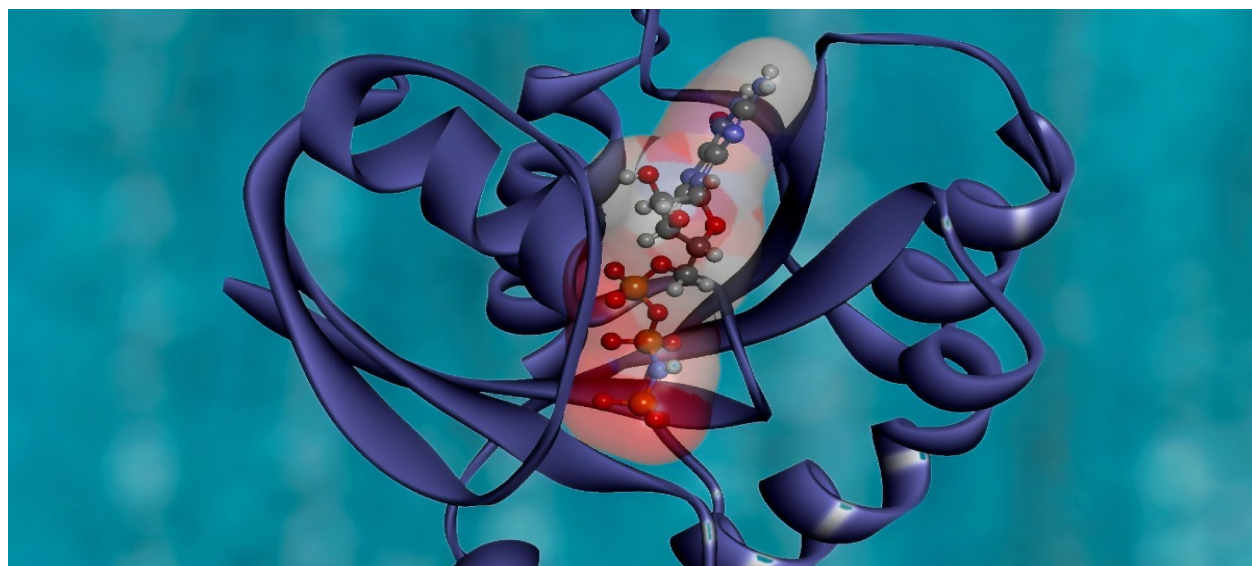

Web Accessibility

Projects

Online Book Store Management System

An online book store is a web application that allows customers to buy books online. Customers can search for a book by title or author using a web browser, add it to their shopping cart, and then purchase it. This Bookstore Management System Software allows the Admin to store the book details and the customer details.

Protein Structure Prediction System

This project successfully implemented a system that demonstrated promising results in predicting protein structures. The system's user-friendly interface and accurate predictions make it a valuable tool for bioinformatics and computational biology research.
